Where: Rockhampton to Yeppoon

- Discovering above ground caves
- Zero depth water play feature
- Keppel Bay views
- Quirky street art
- Infinity edge lagoon
- Sensational sunset

Whether you are arriving from north, south, or west, allow the excitement to heighten when you see the Beef Capital of Rockhampton approaching. The 'are we there yet' whine will soon be a distant memory with only 40 kilometres to go until feeling the salty kisses and sand between your toes.

Before hitting the highway for Yeppoon, why not take a quick detour to the iconic **Capricorn Caves**. The whole family will be blown away by the sculptured limestone caverns. The one-hour Cathedral Cave tour will heighten all of your senses as you duck and weave through this large and most spectacular cave.

Stop for a quick refuel at the Caves Country Pub before continuing towards your final destination!

The 2500 square-metre resort-style **Yeppoon Lagoon** is located right on the beachfront, just a stone throw from your accommodation and includes a shallow children's play area, an informal lap swimming area and a swim-up infinity edge with stunning views over the Keppel Islands. Entry to the Lagoon is free and is patrolled 365 days a year.

Taking pride as the Lagoon's neighbour is a water play feature quite unlike any other. With a mythical sea creature centrepiece, the **Keppel Kraken** is the perfect place to soak up some sunshine. Featuring a host of interactive elements including water cannons, jets and an umbrellabucket, this is guaranteed joy for the whole family.

Once you have dried off, grab a local ice-cream from the Keppel Bay Ice Cream Cafe on James St and head off on a **Street Art discovery**. From the Yeppoon Lagoon and nearby Skate Park to the Queen Street Car Park, Livingstone Library, and Yeppoon Surf Life Saving Club, there is a wealth of visual opportunities around Yeppoon just waiting to make you smile.

Now its time to freshen up before dinner and take a quick drive up to Wreck Point in Cooee Bay and witness your first magical sunset. Along with offering spectacular 360-degree views of Yeppoon and Keppel Bay, Wreck Point Lookout is also veiled in a mysterious nautical phenomenon of 'Selina' – a 62-ton transport schooner. The 'shipwreck' artwork offers a central focus to a short walking trail, which showcases an interpretive panel that shares the history and mystery of Wreck Point.

It's been a big day of discovery, but before you retire for your first night, treat yourself to dinner at **The Spinnaker**. Part of the Keppel Bay Sailing Club, The Spinnaker is your family bistro with big screen TV's and a great beachside deck with a playground for the kids.
